DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 6/15/2007 has been entered.

Response to Amendment

2. Applicant's Amendment filed on 6/15/2007 has been examined with amended claims 1, 7, 14 and canceled claims 4 and 11. In this Office Action, claims 1-3, 5-6, 8-10, 12-14 and 16-19 are pending. Upon allowance claims are renumbered as 1-15.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Rochelle Lieberman on 8/29/2007.

Claims: *Replace amended on record claim 19 with the following:*

Claim 19. (Cancelled)

Reasons for allowance

4. The following is an examiner's statement of reasons for allowance:

- Prior art of record does not appear to teach or suggest or render obvious the claimed limitations in combination with the specific added limitations as recited in independent claims 1, 7 and 14. The prior art of record fails to teach or suggest in combination of claimed elements including "the step of calculating a cumulative selectivity is based upon the mathematical relationship: $S_{ab} = S_a + S_b - (S_a \times S_b)$, wherein S_a is a selectivity of column 'a', S_b is a selectivity of column 'b' is the selectivity of column 'b', and S_{ab} is a cumulative selectivity of columns 'a' and 'b'".
- Applicant's amendment filed on 6/18/2007 has overcome rejection of claims under 35 U.S.C. 112, 2nd paragraph and 35 U.S.C. 101.
- Agrawal et al. (US Patent 5,832,475) teaches a method for performing database queries including GROUP-BY operations, in which aggregate

values for attributes are desired for distinct, partitioned subsets of tuples satisfying a query. Choudhuri et al. (US Patent 6,842,753) teaches as aggregation queries are performed by first identifying outlier values, aggregating the outlier values, and sampling the remaining data after pruning the outlier values. Soderstrom et al. (US Patent 6,741,982) teaches a method of retrieving data from a database system by a process external to the database system is provided, in which the database system accepts and processes data requests in a second query language in response to data queries issued in a first query language by the external process.

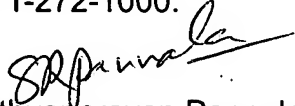

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
